**Bangladesh-Thai Chamber
of Commerce & Industry**

INTRODUCTION

Bangladesh-Thai Chamber of Commerce & Industry was established in the year 2003 under the umbrella of Dhaka Chamber of Commerce & Industry (DCCI) and is a listed joint Chamber of the Federation of Bangladesh Chambers of Commerce and Industry (FBCCI).

It was formed almost at the same time Thai-Bangla Business Council (TBBC) was formed in Thailand under the Thailand Chamber of Commerce and the Board of Trade.

BTCCI is functioned by a 15 (fifteen) member Board of Directors elected bi-annually by the General Members. It consists of Companies, Corporate bodies as well as individuals engaged in Trade, Commerce, Industry, Agriculture, Manufacture etc. The President, Sr. Vice President, Vice President, Director Admin and Director Finance are elected by the Board for a term of 2 years.

Over the years BTCCI has become an important forum for discussion, contact and establishment of business interest and promotion between the two friendly countries Bangladesh and Thailand. With regular induction of members from large, medium and small companies. BTCCI is grooming up steadily as one of the most prominent Bilateral chambers in the country.

Vision

To accelerate economic prosperity of Thailand and Bangladesh through trade, business and investment.

Mission

To serve with commitment and dedication the business community of Bangladesh and Thailand for promoting Trade, Commerce and Investment for the economic growth of both the countries.

OBJECTIVES

- To promote and develop trade, investment and industry between Bangladesh and Thailand.
- To collect and provide business related data, informations, circulars, rules, regulations etc and disseminate these amongst the members.
- To identify difficulties and problems in investment and trade barriers faced by members and take adequate steps to overcome those.
- To explore and target new areas of business and investment and take appropriate steps to tap potential interested groups, joint ventures between Bangladesh and Thailand.
- To provide consultation to members and to undertake by arbitration settlement of disputes arising out of business transaction.
- To provide recommendations to Government in the area of trade, investment and industry related matters.
- To provide and coordinate as a forum to exchange, receive and promote business activities between Government Agencies, Private Organizations and other Chamber Bodies.
- To organize/arrange training programs, workshops, seminars, symposiums, trade delegations and trade fairs participation inside and outside the country.
- To issue document certification including reference letter, trade related documents etc.

Thailand's export to Bangladesh dropped by -7.41% to \$1,140.6 million in 2022 from \$1,231.9 million in 2021. Thailand exports mainly cement, polymer of ethylene, propylene in primary forms, woven fabrics, refine fuels, chemical products, etc. to Bangladesh. Among the export items from Thailand, 'cement' is at top of the list in 2022 with a growth rate of 1.12 %. Thailand's export of cement amounted \$139.6 million in 2022 which was recorded \$138 million in 2021. Bangladesh cement factories are dependent on imported clinker as the clinker cannot be sourced locally. The demand for cement is too high as the construction of many mega projects like metro rail, bridges, expressways, railways, power plants, flyovers, etc. and housing projects is ongoing. The export of Polymers of ethylene, propylene, etc in primary forms dropped 21.23% to \$131.7 million in 2022 compared to \$167.1 million recorded in previous year.

Woven fabrics exports rose by 1.31% to \$ 117.1 million in 2022 compared to \$115.6 million recorded in 2021.

The export of refined fuel dropped -59.65% to \$81.7 million in 2022 against \$202.5 million recorded in previous year. Demand for refined fuel oil has been negatively affected in 2022 because some diesel-run power plants were shut down as well to reduce the fuel oil import in Bangladesh.

The export of chemical products rose by 10.85% to \$72.7 million in 2022 against \$65.6 million recorded in 2021.

On the other hand, despite slow global growth following the Russian invasion of Ukraine, Thailand's import from Bangladesh rose 54.41% to \$83.9 million in 2022 from \$54.3 million in 2021. Thailand mainly imports garments, aquatic animals, 'metal ores, metal waste, scrap and products', 'scientific, medical, testing appliances and instruments', textile products etc. from Bangladesh. Thai imports from Bangladesh heavily centered on garments products. Garments import, which accounts for 56.75% of total import from Bangladesh, rose by 55.88% to \$47.6 million while 'Fresh aquatic animals, chilled or frozen' rocketed 951.11% to \$18.2 million in 2022 against \$1.7 million recorded in previous year.

Thailand's import of 'other metal ores, metal waste scrap, and products' rose by 663.48% to \$6.9 million in 2022 against \$0.9 million recorded in 2021 while import of Scientific, medical, testing appliances and instruments increased by 3.57% to \$3.8 million.

The import of other textile products dropped by -36.99% to \$1.5 million against \$2.3 million recorded in 2021.

DFQF:

Thailand has offered the duty-free, quota-free (DFQF) facility for Bangladeshi products in its market until 2026 to enhance bilateral trade volume. The previous such arrangement between the countries expired on December 31, 2020.

If Bangladesh does its homework properly, then it can get maximum output from the DFQF facility offered by Thailand. Bangladesh should analyse the Thai market to understand the Thai economy, its cultural practices, and social norms and then assess the consumption habits and patterns of Thai consumers.
